

TOTAL PILOT SOLUTION

FLY ON YOUR SCHEDULE, ANYWHERE YOU WANT TO GO WITH YOUR PERSONAL CIRRUS PILOT.

➤ Imagine the freedom of flying yourself to a business meeting or family vacation home. You avoid commuter traffic and the many delays that commercial airlines and big airports can bring. Fly your special someone to a secluded resort for a surprise getaway or visit your child at college. You can depart and arrive on your own schedule adding time to your life.

➤ Learning to fly is a process that takes time and the guidance of a quality, experienced instructor. The Flight Academy's pilots are high-time Cirrus instructors who teach the proper fundamentals required to be a safe and proficient pilot. Having a full time instructor/pilot with you over the course of 1 month, 3 months, 6 months or a year is a great way to earn your license at a pace that you are comfortable with.

The pilot will relocate to your home base and become your personal flight instructor, corporate pilot and aircraft manager. Some of the benefits of having your own full time pilot/instructor include:

Ease the pressure of learning to fly in a certain amount of time.

More than one person can learn to fly for the same price.

A professional pilot can fly with you or for you to business meetings.

Available as a 1-month, 3-month, 6-month or 1-year contract.

Should you decide that you would just like to have your own personal corporate pilot, the Total Pilot Solution is still an excellent option. All of the Flight Academy's pilots are very experienced, high time pilots who will provide white glove customer service to you and your passengers.

AIRCRAFT MANAGEMENT

Have an experienced professional help you with maintenance, hanger, cleaning, data updates and other ownership issues. There are many details to deal with in owning a new plane. Your on-site pilot will work with our management team to take care of all issues related to owning and maintaining your aircraft. We will coordinate maintenance with the local service center so you can focus on flying. Let the Flight Academy's experience with the Cirrus work for you
